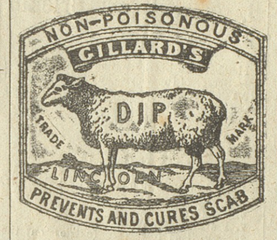
GILLARD'S SHEEP DIP
A Glycerine Compound



This Dip is most carefully prepared by the latest improved methods and can be used with
COLD WATER
Supplied to the Prince of Wales's Farm at
SANDRINGHAM
Professor Kyle reports as follows under date April 13th, 1881—
"After a careful analysis I can confirm the statement made by the manufacturers that this preparation is entirely free from Arsenic or other mineral poison. The Dip contains neither soap nor caustic alkalies. As is well-known, the use of the former in the preparation of Sheep Dip is attended with the inconvenience that the employment of the hard waters so common in the country causes their decomposition and leads to the separation of the oils in the bath, whilst the latter injures the wool and renders it harsh. In short I consider Gillard's Sheep Dip to be a good article, free from mineral poisons, deadly to all parasites of the Sheep and other domestic animals, a CERTAIN PREVENTIVE AND CURE FOR SCAB and when applied according to the directions in no way injurious to man or the Sheep."
NOTE—A sample drum will be supplied gratis to any Estanciero who is willing to give the Dip a fair trial and report on same.

Remataremos a la mas alta postura y dinero de contado é importados de la afamada cabaña de Bailleau Ainé a Illiers los siguientes animales de raza.
11 Carneros de 16 meses
397, 822, 400, 369, 321, 315, 317, 313, 388 374, 382, 408, 409, 335.
39 Ovejas de 16 meses

Cada animal lleva en la oreja izquierda el ano del nacimiento.
En cuanto a la clase y calidad de esta envio hecho por el Sr Bailleau, puede reputarse como lo mas selecto que ha salido de aquella cabaña para este pais.
Por cartas que hemos recibido de nuestro socio actualmente en Europa y que tuvo ocasion de ver los animales comprados por el Sr Lezama, antes de salir nos dice que es la flor de lo que existia en la cabaña del Sr Bailleau Ainé.
Nos escribia al mismo tiempo que habia enviado unas veintas borregas para un concurso, de las cuales con razon estaba orgulloso el anciano criador.
Los tipos de animales de esta tan celebre y renombrada cabaña que puede decirse ha terminado ya, es lo mas sobresaliente que existe en la raza ovina.
Otra de las grandes ventajas que ofrece esta espedicion, es que tanto los carneros como las ovejas son animales nuevos, pues no tienen arriba de 17 meses de edad.
Sabido es que el origen de la cabaña Bailleau proviene desde su fundacion, con carneros y ovejas de la cabaña nacional de Rambouillet y que aquel senor a fuerza de contraccion e inteligencia durante mas de 40 años, llego a formar el magnifico tipo conocido bajo el nombre de su fundador.
Aconsejamos a nuestros criadores que aprovechen una ocasion que quizas sea la ultima que se les ofrece en cuanto a este origen, para hacerse de animales tan sobresalientes y que podran examinar desde el Lunes 2 de Mayo en nuestra casa Alsina 78.

Bey of Tunis asks Powers to mediate. Another outbreak in Oran (Morrocco frontier). Not important, but Government has taken measures to put it down.
Note—Only 5 of the Ozar's assassins were hanged, not 6, as reported. The sixth is supposed to be the girl Petrowsky.

THE ASHES OF VIAMONTE.

Yesterday was another 'In Memoriam' day in this city, and although the attendance on the Mole was far short of that when we brought up the remains of Suarez and Olavarria, still there was nothing wanting on the part of the people or of the Government to pay full honor to the illustrions dead. The Paseo Julio was lined with the Artillery, and Colonel Donovan, with his regiment, the 8th of the Line, held a guard of honour in front of the station. Although 11 o'clock was the hour fixed for the ceremony, there were so very few on the Mole at that hour that it was quite evident those who attended punctually came much too early. At the end of the Mole we saw the boats from the squadron as trim as if they belonged to Portsmouth, and in the Admiral's boat there was a huge blue and gold National flag spread out, but in such a fashion that the Admiral, if he sat down, must have sat upon the gilt arms of his country. Dr. Dn. E. Costa, Sr. Ladislao Martinez, Dn. T. Mendez, Mr. Harris and Dn. M. Billinghurst were amongst the first to arrive. They stood at the 'casilla' on the Mole end whose windows were perforated last lass year by balls from the little steamers Tejedor and Avellaneda. The change that has come over things since May last year almost rivals the change that has come over the country since the deceased hero, whose ashes we were bringing ashore, ruled as Governor of Buenos Ayres.

Close on 12 o'clock Admiral Cordero, heading a brilliant gold-lace and cocked-hat procession of general officers, &c, marched down the Mole; behind came Colonel Solier and other naval officers, all beautifully uniformed. Then followed the Municipal Committee, whose presence on the Mole reminded not a few of the unpaid coupons. Ex-President Mitre and Dr. Dn. Rufino Elizalde, walked arm-in-arm, followed by Mr. Silas Atkins, Mr. Underwood, and a fair sprinkling of foreign and native gentlemen; but, there was no mistaking the fact that, when the ashes of Romero Gimenez, the shot Spanish editor, were brought up, there were ten to one for the people on the Mole yester-

day. The hearse was a very quiet affair, and nothing at all approaching the get-up of last year. On viewing the demonstration, one felt inclined to ask, 'are we growing out of those posthumous funciones,' or is it that the repetition of those honours to onr dead and expatriated heroes is too much for us? Something has sapped the demonstrative in us since last year: that is as clear to all who study the matter, as that the undertaker in his yesterday's task forgot to put a single weeping angel on top of the hearse. The little steamer in sight, out went the men-of-war's boats to meet her, and the guns in the offing announced the arrival of the remains at the Mole.

As for the procession along the Mole, there is really nothing to remark save the excellent repair of the planks and the utter absence of those 'hole in the Mole' accidents of former years, which for so long a time marked the columns of some of our morning papers. Thirty-eight years have elapsed since General Viamonte died in Montevideo. There were many on the Mole-head, following the 'cajon,' that knew him in the flesh, and one or two countrymen from San Vicente, who happened to join the 'cortege,' learned for the first time that the well-known estancia Viamonte took its name from the hero whose ashes they now followed step by step to the Cathedral.

The funeral procession marched to the Cathedral, where nearly all the matrons of Buenos Aires were assembled, dressed in inky garments. The temple was draped in the accustomed mourning, and the people who were missing on the Mole seem to have gathered in the Cathedral, as the crush in the aisles was great. All the flags were at half-mast, and the streets were lined with coaches.

Mr. Alvear spent the earliest hour of the morning at the Recoleta, arranging everything for the easy accommodation of the funeral, as, due to the improvement works going on there, a difficulty had arisen which Mr. Alvear had removed.

In our last issue we gave our readers a biographical sketch of General Viamonte, who played such a prominent part in the affairs of Buenos Ayres in the early portion of this century. He flourished in a period when Buenos Ayrean affairs were very different from what they are now, yet the country is the same, and public respect for upright and honourable men has lost nothing by the long lapse of years. In General Viamonte's time the rulers of Buenos Ayres had fewer taxes to collect, and 'proveeduria' popularity was especially unknown. Could he but peer through the coffin lid, he might indeed find it difficult to recognize in the Buenos Ayres of to-day the city he once governed, yet with all our growth and grandeur, &c, the question is a fair one—Have we advanced one iota in those great paths which are lined with the ashes of heroes, and are the most inviting when the most simple? Could the dull ashes, which we now honor, come to life and speak, possibly the first question from the corpse would be: *What's the Contribucion Directa?*

VACCINATION.

Dr J Meza, who is Municipal Superintendent of Vaccination in this city, has published his report for the year 1880. In a city like Buenos Ayres, where small-pox has assumed of late years such alarming proportions, any publication referring to vaccination will be read with the greatest interest. In spite of the prevalence of this terrible disease very few people in Buenos Ayres are vaccinated, and a law should be passed, declaring vaccination obligatory: every child in the city should be vaccinated, as its name is entered in the books of the respective parishes.

The following figures refer to the numbers of people vaccinated during the twelve months of 1880:—

	Male.	Female.
January	39	58
February	22	11
March	62	48
April	98	101
May	186	162
June	161	108
July	12	21
August	51	53
September	73	92
October	154	157
November	108	125
December	56	32
Total	1040	968

The demand for vaccine matter from all parts of the camp has been pretty large, and it is to be hoped that every capital of province in the Republic has a special Vaccination Department, to counteract the spread of the disease. Nowhere is the benefit of the Institution more felt than in Buenos Ayres, where the victims of the disease are still very numerous.

Our colleague *L'Union Francaise* considers that the war between France and the Bey of Tunis will place France in direct conflict with Turkey and indirect hostility to Italy. This would be rather a serious affair.

AFTER THE INDIANS AT CHUPAT.

We, townfolks at Trerawson, were yawning away our usual stagnant life, gapingly looking for a vessel from the N.E. with a S.W. wind blowing stiff, and speculating when the all-absorbing harvest would be done, so as to bring down the farmers to the stores, when word came that Indians had cleared out with a troop of 100 cattle. At last, here was something rousing. Fancy to be sweeping over the high plateaux of Patagonos, with aborigines scudding before you for the very life, our halloos and rifle bullets whistling about their ears, in answer to their war-hoops and poised lances. To horse! Ah! there's the rub Where are the horses? 'In the camp.' A wild paraphrase of the needle in the haystack. An Australian may speak vaguely of the bush, or an East Indian of the jungle, but the Patagonian camp is simply a terrestial sea, where men and animals ravel by compass only. A horse once adrift on this camp may be occasionally seen, just as an ostrich or hare is; indeed, when game does run scarce here, looking for horses will be a far hardier substitute than fox-hunting in the midland counties. Rather than thus go voyaging after the proper horses, we had to offer small kingdoms for a horse as poor old Richard had before us, any quadruped which happened to be tied up within reach. Blankets, revolvers and a cud to chew, were soon in their places, and the word was given to mount.

Slackening pace in front of the Capitania, in accordance with the military peremptory order to slowly salute the said flagstaff, we were accosted by the chief thereof, a sub-lieutenant of marines, and as he claims jurisdiction over the Indians, when he heard of our business, there was an additional recruit to our party with the shout 'mi voy,' and, lo! such a hubbub ensued. A horse had to be found, then a saddle here and a bridle there: a 12lb. Remington had to be polished, with sixty rounds of ammunition to accompany it. Meanwhile the lieutenant was undergoing personal preparation: one nigger putting on him a clean cambric shirt, the other brushing down his best suit, the small boy sweating at polishing his boots, and the adjutant holding ready the belt and sword. At somebody's suggestion he changed the latter for a 'quillanga,' the soft Indian blanket.

At last we were off, in capital style and spirit, caracoling and hopping, we bounded along, eager for the fray. Mr Comisario Jones, we knew, was some 5 or 6 hours in advance of us, so that it would take some spur-work to come up with him. When about two leagues gone we found the first trace of him in the shape of a couple of strapping youths whom he had found, each leading a spare horse, with light accoutrements, and jogging along at a steady pace. Holloa! here was a something as if it meant business. And at about the same time, as if to additionally damp our ardour, the remington and ammunition had commenced surgical operations on the thighs and shoulders; whilst the 'cola' and collar of the lieutenant chafed exceedingly. A halt had to be called, and a change about of horses. It was suggested that the cartridges be left in deposit somewhere, but no, no, said the lieutenant, it was bad enough without the sword; when we came up with the indians, it would be those 60 rounds which would annihilate them, if they only stood firm. Forward!

Those two veteran boys had jogged clean out of sight. Hard riding was the word, lest we should be without guides; consequently we gradually fell into a straggling Indian single file, with a square intervening. About midway to Gaiman, our rendezvouz, the lieutenant's horse again completely caved in, and a levy had to be made on a neighboring farmer for a fresh charger.

Off again; but soon in sullen silence, or only broken by irreverent ejaculations as we heeled and rebenqued our fagged beasts. The ammunition had to be portioned out for each man's pocket, and everyone having taken his turn at the remington jolting had sore shoulders to enliven the march. At Gaiman, we supposed a relay of a fresh tropilla would be awaitng us, and although the day was waning, and we had another weary league between us and the goal, after the terrible five leagues we had cleared, gathered ourselves together, determined to push on, notwithstanding the heart rending drag of the poor lieutenant.

A cloud of dust in advance! Halt, and form square; or it may be a chasque hurrying us on to the scene of strife, as a succour in need to the impetuous Comisario. Now did the lieutenant hug the remington, warmly approving his own foresight and tenacity in regard to it.

The cloud approaches, and from it emerges a Gaiman small boy. Nothing daunted by our martial draw up, so strangely contrasted by the drooping heads and lank tails of our beasts, he came sweeping down upon us. Breathlessly we enquired what news of the advanced guard? At first he appeared perplexed, then—Did we mean the cattle of Amas Williams? It was rather hard to suppress indignation at such stupidity of taking cattle for advanced guards; but then reasoning that the cattle must be in front of all, some one auswered yes. He then pointed to a cloud of dust to our left, going down the valley, and said 'there they are': grinned, dug his small heel on the ribs of his horse, and scampered away.

Now, this was too bad. We were done out of our fair sport, in search of which we had travelled five leagues and a half. It was no consolation to know that the cattle had only strayed, and with which Indians had nothing to do. These Indians are shabby, cowardly fellows, we felt.

However, being within half a league of the strategic town of Gaiman, we resolved to make an imposing entry thereto. A bullock cart would have been expropriated to carry the lieutenant and the remington had there been one within reach. After a night's rest, we returned to town the following day, to recount our adventures, and the lieutenant to write a laconic despatch.

What would Cols. Mansilla and Murga have given for such a party as ours was!

EDITOR'S TABLE.

The event of yesterday was the arrival of General Viamonte's remains. It was a most imposing spectacle, and the crowd looking on was large for a week day. We give an account of the ceremony in another column.

The races at Palermo to-day are likely to attract thousands, the closing of the Italian Exhibition having been postponed till next Sunday, so there is nothing particular to attract the public in other directions, except the Governor's reception and the feasts at Belgrano.

The 'blow' at the Olavarria Colony blew down and destroyed 7 houses, unroofed 54, and injured ten people, one of them, a barber, rather badly. This is rather a heavy bill of damages in such a small community.

When the Cabildo clock was being taken down to allow of the tower being pushed a good deal nearer to the moon, it was smashed considerably, and now all the four dials have been stuck together with cement and are being put up again, instead of new dials being purchased. We wonder the Lord Mayor allowed this. At night, when the dials are illuminated, the effect will be what our Gallic friends call 'shoking.'

The feast of their founder, St. Paul of the Cross, was kept privately by the Passionist Fathers at their Chapel 1316 Calle Victoria, on Thursday, 18th inst., the public celebration being deferred until the reopening of San Roque Church, which is undergoing repairs. The mission, previously announced, is also postponed until after the same date. The Passionist Fathers have just returned from three very successful missions given in La Chosa, Las Heras, and Marcos Paz; Navarro is spoken of as next on the mission list. The Rev. Father Martin has a letter for Margaret Cavanagh.

We cut the following from the London *Times*. We published some days ago, an advertisement for this same F. C, who appears in no hurry to claim his fortune—

"If F. C., who came to England in or about the latter end of the year 1871, and who afterwards left England in the same year or the beginning of the following, and, it is believed, went to Buenos Aires, South America, will apply to Mr Walter Augustus Holcombe, Gray's-inn-chambers, 20, High Holborn, London Solicitor, he will hear something to his advantage."

Mr George Parkes has been named Inspector of Machinery of the Rio Negro flotilla and also director of the naval workshops down there.

There was so great a rush of citizens yesterday to enrol themselves as National Guards that it was simply impossible for them all to get into the office to receive their papers, and it is thought that the term for enrolment will have to be extended. How is it that in this country people always leave things to the last minute, whether paying Contribucion Directa, enrolling in the National Guard, or any other act. It would be a decided step in advance if this system could be done away with and the people be forced into punctuality when the State's business is in question; but General 'Mañana' is a tough customer in this country. Nevertheless, we hope to see him exiled for good some day.

We are sorry to hear that 'mine host' of Belgrano is in bed, having broken his left knee cap in two places through a bad fall; he is suffering great pain, and the doctors say he cannot leave his bed for the next three months.

The biggest 'bola' we have heard of for a long time is that published by a Colombia paper which announces that the Liberal party in Buenos Aires (which Liberal party? all call themselves Liberal parties here) has blown up the city with dynamite, causing appalling destruction to life and property.

The concert of the German Sing-Akademie at the Colieso came off on Friday night. The attendance was a very large one. The whole of the pieces in the programme were well executed. Mdme. Niebuhr sang 'O lieb, so long du lieben kannst with an artistic finish that was charming: her voice is sweet and well cultivated (the cause of the long suspension of this concert was owing to this lady's illness.) 'Wiederkehr,' a tenor solo, was well sung. 'Der verathene Freier,' a Swedish air, sung by the chorus, was received with great applause, and had to be repeated. Owing to pressure on our space we are compelled to shorten our remarks.

The Royal Mail steamer Elbe is expected at Montevideo to-morrow.

Mr John Dillon, who has so long and ably filled the post of Chief Commissioner of Immigration, has resigned, and will be succeeded by Dn Angel G de Elia, a gentleman of the highest abilities and character, and whose appointment has given general satisfaction. Mr Dillon rocked the cradle of immigration in this country, and rocked it well.

Dn Lucio P Lozano, is now in charge of the advertising and accountant's department of our colleague *La Republica*. Mr Lozano's high abilities and genial personal qualities make him a general favourite, and we wish him every success in his new post.

La Moda is superb this week. There are two dinner dresses in it that would give an appetite to the most dyspeptic, and a 'traje de noiva' sufficient to make the crustiest old bachelor sigh for a young wife.

The Chess match, by telegraph between the Liverpool and Calcutta Clubs has been won by Liverpool. It lasted four months.

The Rodanow Watch Company of Boston, which has been advertised in several Buenos Aires papers as selling pure gold watches for half nothing, turns out to be the purest swindle. The manager, a man named Grautz, a Nihilist, has been arrested.

ON 'CHANGE.

April 30th

Patacons	28.75
Cedulas A	94½
National Bank Shares..	87½

The liquidation to-day proved a surprise to the whole market; gold which ruled so weak yesterday and with a downward tendency suddenly shot up to 28.75, and absorbed the whole market, and National Bank Shares that everyone thought would so occupy the Bolsa were but slightly dealt in. The vencimientos of gold and stocks were marked as follows:—
Patacons, $f.12,500,050
Cedulas, $f 8:3.000
National Bank Shares, $f.28,149
And the Bolsa liquidator marked up the following as the rates for the liquidation:—
Gold, 28.70
Nat. Bank Shares, 85
Cedulas, 94
and on this basis the accounts for the month were liquidated in advance.

From the opening of the ring it was clearly evident that one or two parties were short in gold, and had held off till to-day to buy in; luckily for the market there was a large amount of gold proceeding from discounts yesterday and exchange to be sold, thus the demand for the liquidation met the supply. It is presumed that to-day's business has closed what is termed the loan speculation, and that in May the gold market will be left more to itself; it is worthy of note, however, that notwithstanding the enormous sums of gold sold short, and the non arrival of much fresh gold from Europe, still the sellers of gold were able to cover without any loss, which is an unerring sign of the real state of the market.

Gold opened at 28.65, dropped to 28.60, and then steadily rose to 28.75, at which it closed. The cash sales amounted to 783,165 pats, and the sales for the end of May amounted to 532,000 pats, opening at 28.55 and closing at 28.60. Sales were made for May, June and July at 28.60 and 28.50. The sales of the day amounted to 1,460,165 pats. Cedulas were largely dealt in, 110,300 pats sold cash at 94½, and for end of May 40,000 at 94½.

National Bank Shares, the Monarch stock of the market, presented less flurry than yesterday; the cash sales amounted to 1,540, opening at 87½ and closing at 87½. Up to the closing hour of the ring the market ruled so even that it appeared as if neither overbought nor oversold; but shares were lent at a valuation of 90 to close the liquidation, and stock sold for May was delivered to-day, which shows how the market stands.

The funeral ceremonies at the Mole and Cathedral to the memory of General Viamonte took many of the brokers from the Bolsa. Calle Florida at one period was lined with brokers, and the affair slightly interrupted business, but the liquidation on 'Change had also to be attended to, and at 2 o'clock all the brokers were up to their ears in accounts, &c.

The change in the Provincial Government to-morrow has had no apparent effect on the market. Dr Roach enters office at a most critical period; he has a wide field indeed for reform, and his friends all predict that he will reduce taxation and reform the Municipal administrations throughout the Province; if he does this he will realise our best wishes. To-morrow he takes office, and his friends go out to Belgrano to welcome him.

It is freely said that one of Dr Roach's first measure will be to bring about an amalgamation of the Prov. and National Banks, and thus remove from the market the rivalry that at present exists between the two banks.

The London and River Plate Bank put down its drawing rate of exchange to-day to 48⅜, and the rate in the open market cannot now be quoted higher than 49, although we have 2½ millions of ar. of last year's wool yet to ship, which is indeed an anomaly; the prevalent opinion is that the Prov. Bank will draw next week.

It is rumoured on Change that in a few days a special agent leaves for London with a view to raise a loan for the Province of Buenos Aires, to pay for the expropriation of the Gt. Southern Railway; we much deplore this step of the Government, as the railway as an English Company was always double capital and double credit for us abroad; the *Nacion* this morning estimates its cost at 260 millions, a most erroneous figure; the railway represents to-day fully 4 millions sterling, say over 560 millions currency.

To-morrow, Mr Runciman, Mr Hill, and Mr White leave for the Missiones. Mr Budge of Concordia will join them; we connect this trip with a further development of our growing sugar trade.

Mr Bankier took leave of his friends on Change to-day, and was accompanied to the mole head by such a crowd of friends that many thought he was a German barraquero.

The sales at the ring were—

For May 2nd 20,000 28.70
For May 4th 20,000 28.70

The payment for produce to-day were not so heavy as on last Saturday; the week has been a kind of lambs wool week, and although the losses in wool are heavy no further 'novedades' occurred. It appears that this morning wools sold freer than before owing to the necessities of the bidders. We heard of the sale of 10,000 ar. in barraca at 89, for which 100 m/c per arr. was refused before the Antwerp auction began. All the wool at the Plaza Once Station was sold this morning at prices from 80 to 99, and we heard of two or 3 other lots in deposit sold at reserved prices.

The news from Antwerp of the close of the auction will be found in another column.

The Archimedes leaves to-morrow for Rosario. The Galileo arrived at Montevideo to-day, comes up to-morrow with 1,500 tons and 42 passengers, leaves on 11th with Belgian mails. The Laplace, due at Montevideo to-day, leaves for Havre on May 8th, and has engaged 800 bales. The Havelius leaves to-morrow quite full of cargo and passengers; she takes through passengers to join Sirius at Rio, leaving for New York on May 10th. The Rosse leaves to-morrow full for Bremen and London. The Vandyck sailed last night.

Sir Horace Rumbold Bart, our much esteemed British Minister, leaves on Monday for Montevideo to catch the Pacific steamer for Europe. Although only 8 months here Sir Horace gained the esteem and respect of all who had the pleasure of his acquaintance, and in matters connected with the Legation displayed a zeal and attention that merits a more extended notice, which due to the great pressure on our columns we hold for our next issue.

A telegram dated Durham 29th, 2.45 p.m., has been received, announcing the arrival of Messrs Woodgate Brothers steamer Titania, with 700 mules from Buenos Aires and Montevideo. The mortality was under 1 per cent. This may be ascribed to the special build of the vessel, for carrying cattle from Canada to England; she carried river water in her ballast tanks, thus rendering condensed water unnecessary. The ventilation has also been specially attended. This is the steamer to carry River Plate cattle to England.

Mr John Drysdale, who arrived from Rosario, was welcomed on Change, he reports business very brisk up there.

Exchange rules dull, a leading German house drew yesterday at 49, and to-day put the rate down to 48⅝, drew yesterday on Paris at 5.19, and to-day at 5.18.

The Provincial Bank discounted yesterday eight millions and a half currency.

Very splendid news from London of a financial nature was received, but we cannot as yet give details.

Messrs Gaston Saubinea & Son's circular was out to-day, we hold it for our next.

The Custom House for April gave 1,270,673 Pesos fuertes.

At afterhours gold ran up to 28.90, under the presumption that some parties were very short. Shares were also very largely dealt in, fully 100 sold cash at 87½, and much done for May at 87½. At ½ past 4 o'clock it was known that an auction would be called, and there was great excitement in the room. Soon the auctioneer for the week took his post on top of the table, and then the squeeze round the gas light, the hum in the hall; the shouts of the brokers formed such a strange scene that we are free to say people who dont visit the Bolsa as such times know really nothing of what is going on. The auctioneer announced that the liquidator was short gold, and called the auction to buy.

18,250 pats cash, the first bid was 28.90, finally it was bot for 28.85, from P Gandulfo; on the last day of March this gold was worth only 28.35.

Shares, 350 short, liquidator bought—
100 cash at 87⅝
100 do 87⅝
50 do 87⅝

We received to-day the following news from Chupat; it might be of a more agreeable nature, but officialism is our bane:—

"The pilotboat Gwenllian has arrived from the colony with the usual cargo of wheat and feathers, over three tons of the latter, and a crowd of passengers on business, two on a visit to the old country.

"The only thing stirring was the ever-recurring abuse of office by officials—this time the Subdelegacion, by whom two men were apprehended on a charge of robbery, put under torture, shot at with blank cartridges, one kept in durance, and the other sent up in irons to B. Aires; all this in violence of the Comisario's protestation, and without the least cognisance of the 'Juzgado'. Such conduct naturally gave rise to a burst of indignation on the part of the colonists, who in public meeting assembled denounced such arbitrary and barbarous proceedings as against all law and humanity. Had it not been for the reliance the colony has on Mr Comisario Jones to eventually rectify such scandalous conduct, an inevitable conflict would have occurred. To make matters worse, whilst drilling his four men in front of the village schoolroom, the official ordered them to fire their blank cartridges on a number of children in the window, breaking the glass thereof in their faces. Surely the national flag can never cover such barbarities.

"The National Receptor has come up in ill-health, leaving the Custom House and Post Office, pro tem., in charge of the Comisario.

"As wheat threshing goes on, the general yield proves better than expected; but the low price offered ($90) induced the farmers to withhold it from market.

"There were great expectations for fresh arrivals in the colony, as labor was getting very scarce. The family who had recently arrived there was heartily welcomed, and is thoroughly satisfied.

"On the delivery of the title-deeds the old settlers had a tea-feast and rejoicing. Some day those hardy pioneers will be venerated."

Our active Rosario correspondent sends the following:—

"Five steamers advertised to sail from Rosario in one day! and all first class. It appears a very short time ago when Mr Bruce's little steamer the Dolorcitos, I think, made it weekly trip to B Aires. We may well call the old veteran the Wheelwright of the River Parana. It was he who invariably initiated every improvement in steamer navigation, and his vessels have at all times sustained their great popularity, and vanquished competition time after time. Hosts of pleasant reminiscences surround the well known steamers of the Bruce Line. Passengers now-a-days are more numerous and more heterogeneous, and they have more steamers in which to elect taking a passage; but notwithstanding competition our old friend, the comfortable Proveedor, appears to remain the favorite, retaining her well earned popularity.

"I wish the Editor of the *Libertad* had been present to see the silver going on board the Lamport & Holt splendid steamer, the Vandyck. He would have felt less desponding in reference to scarcity of the precious metal for the National Mint. The Vandyck takes upward of a quarter of a million of silver from Rosario in this trip.

"The first steamer that the French Company, Chargeurs Reunis, have placed on the direct route between Rosario and Havre, the Villa de Rio Janeiro, will be here on the 30th. Another feather in the cap of your favorite 'old Rosary'."

Our London advices per French mail give the following:—

"The half-yearly general meeting of the Montevidean and Brazilian Telegraph Company (Limited) was held last Thursday, at the offices, King's Arms Yard, Moorgate Street, Sir Thomas Gore Browne presiding. The report stated that the company's percentage of the gross earnings of the Western and Brazilian Company amounted for the year ended Dec 31st last to £3,257, the December quarter being estimated. After setting aside £500 for redemption of mortgages, and providing for all charges and debenture interest accruing during the year, there remained a net balance of £1,491, out of which it was proposed to pay a dividend of 3s per share, £1 10s per cent., and to carry forward a balance of £344. On the formal motion of the chairman, the report was adopted and the dividend was declared. The retiring Director and auditor were afterwards re-elected.

"The Directors of the Brazilian Submarine Telegraph Company (Limited) have declared an interim dividend of 3s 6d per share, free of income tax.

"The traffic of the Central Argentine Railway continues to rise with great strength. For the four weeks ending January 23rd last the traffic on the same mileage is £18,046 against £15,304; nor does this arise from exceptional circumstances, as the following will show:—For the four weeks ending January, 1881, is £18,046 on 246½ miles; for the four week ending January, 1880, £15,304 on 246½ miles and for the four weeks ending January, 1879 £12,299 on 246½ miles."

DEATH.

On the 29th of April Mary Malony died at the age of 20 years. A native of the county Westmeath.

MALTINE.

(Extract of Malted Barley, Wheat and Oats.)

The Original and only Preparation Composed of these three Cereals.

MALTINE is a highly concentrated extract of malted Barley, malted Wheat, and malted Oats, containing, undiminished and unimpaired, all the nutritious principles that can be extracted from these cereals. By the most carefully conducted scientific process we are enabled to offer a perfect article, possessing five to ten times the beneficial and nutritive merit of any alcoholic or fermented Extract of Malt.

"WHEAT and OATS are especially rich in muscular and fat-producing elements."
—Liebig.

MALTINE will increase both weight and flesh in most persons of thin habit.
MALTINE is particularly recommended for delicate Females and for weak and debilitated Children and Infants.
For Deficient Lactation, and for Mothers whilst Nursing, MALTINE is especially recommended.
MALTINE is the most important combination for use in Constipation.
MALTINE is entirely free from all products of Fermentation, such as Alcohol and Carbonic Acid Gas.
MALTINE is very palatable and pleasant, and will be readily taken by the youngest child.

THE COMPOUNDS OF MALTINE

Can undoubtedly be used with greater success than any other remedy now known in cases of General and Nervous Debility, Indigestion, Imperfect Nutrition, and Deficient Lactation; Cholera Infantum and Wasting Diseases of Children and Adults; Convalescence from Fevers, and whenever it is necessary to increase the vital forces and build up the system.

For Consumption and Wasting Diseases.

MALTINE with Cod Liver Oil—The most perfect emulsion and most agreeable and effective mode of administering this nauseous but valuable Oil yet discovered.
MALTINE with Hypophosphites—This preparation is specially indicated in Consumption, Rickets, and deficient Ossification.
MALTO-YERBINE.—A most palatable and efficacious remedy and substitute for Cod Liver Oil in the treatment of Consumption and Wasting Diseases; also the most perfect remedy yet produced in Chronic Pulmonary Affections, Coughs and Colds.

El campo esta dividido en dos potreros; uno de 621 cuadras donde esta la poblacion principal y dos puestos mas que es donde pastorean los animales vacunos; es un lindo potrero para invernada. El otro potrero se compone de 179 cuadras y hay en el dos puestos con ovejas.

El alambrado de todo el campo es de primer orden, con buenos postes de Ñandubay, barrillas de pino de tea una parte y lo demas barrilla de alambre torcido de cuatro hilos, el alambrado es todo de acero clase superior, recientemente construido en una estension de 18,000 vs lineales, habiendo costado $120,000.

El ferro carril del Sud cruza el campo en una punta y viene a quedar exactamente a minutos de camino entre las estaciones de Ranchos y Villanueva, punto indicado para una estacion intermedia, que haciendo una solicitud a la empresa la concederia, lo que, a no dudarlo, seria una ventaja.

Ademas, por la proximidad a la ciudad, puede este campo destinarse ventajosamente para la labranza, pudiendo de esta manera obtener un arrendamiento que no bajara de $300 por cuadra, que es el precio corriente que hoy se paga para chacras, obteniendose asi $240,000 anuales.

Este campo tiene actualmente contrato de arrendamiento que le faltan 3 anos y 8 meses.

Titulos inmejorables.

Nota—El campo esta alambrado igualmente por los costados de la via ferrea, asi es que el tren no puede hacer dano a las haciendas.

Otra—Los Jueves y Domingos habra una volanta en la casa de negocio de la estacion Villanueva para conducir gratis a las personas que dessen examinar el campo.

P. DILLEMANN y Ca., para evitar juicios erroneos en el asunto de la marca PESCADO, hacen constar:—

1º. Que sacaron en el ano 1874 Patente por la marca PESCADO en Francia.

2º. Que sacaron Patente de la marca PESCADO en el ano 1876 en la Republica Argentina en toda forma para los articulos de FERRETERIA y CUCHILLERIA que acostumbran introducir en este mercado, como marca de COMERCIO y de FABRICA la cual les fué concedido para SU USO ESCLUSIVO. La Patente fue publicada durante un mes en los diarios, segun lo prescribe la ley, sin que hubo alguien que hubiera protestado contra ella.

3º. Que habiendo sido introducido una imitacion y falsificacion de su marca, acusaron criminalmente la casa que habia cometido este delito. La casa en cuestion, los Sres. Mantels y Pfeiffer, fue condenada y la sentencia publicada en los diarios por cuenta de ella.

4º. Que recien durante la tramitacion del proceso la casa de Mantels y Pfeiffer busco hacen valor la patente de su fabricante en Francia a la Carpa, y pidio su registracion para Coutaret Denise y fils, la que les fue negada por la oficina de patente por ser PROPIEDAD EXCLUSIVA de P. Dillemann & Co. en la Republica Argentina, como marca de COMERCIO, y de FABRICA.

5º. Que ultimo recurso se dirigio la casa de Mantels y Pfeiffer al ejecutivo en solicitud para obtener el registro de la marca Carpa, y el Exm. Gobierno ha tenido a bien, concederles parte, de lo que es PROPIEDAD NUESTRA, adquirida en toda forma, como lo prescribe la ley.

6º. Al fin diremos, que todos los terreteros que vienen a nuestra casa, saben que si la marca Pescado ha adquirido una cierta fama es porque hemos trabajado durante muchos años, a espender los articulosde esta clase en la mejor calidad.

En cuanto a las apreciaciones, que ciertas personas se han permitido hacer de nuestro modo de proceder, no hay necesidad de defendernos, 33 años de vida comercial en esta plaza bastan para habernos hecho conocer.

AL PUBLICO

La casa de Dillemann & Co. ha creido conveniente llamar la atencion publica por medio de los diarios sobre una cuestion de marcas que ha tenido con nosotros y que ha concluido ahora con nuestra mas completo triunfo.

A estas publicaciones contestamos

1. Que la marca carpa (UN PESCADO) es la propiedad de los fabricantes en cuchilleria Srs. Contaret-Denise & Fils quienes la poseen hace mas de 60 años.
2. Que nosotros hemos presentado poder de dichos fabricantes.
3. Que si la casa de Dillemann & Co. ha hecho registrar aqui en su nombre la marca pescado era con el evidente objeto de usurpar los derechos de nuestros representados.
4. Que es ridiculo de Dillemann y Co. llamar imitation y falsificacion los cuchillos importados por nosotros y comprados al fabricante (verdadero dueño de la marca desde 60 años.)
5. Que Dillemann & Co. no son fabricantes sino introductores como nosotros, no tiene valor su pretension de haber anotado la marca Pescado como suya en un pueblito de Francia cuando debian registrarlo en el Ministerio de artes y oficios de Paris lo que no consta que hayan hecho.

EDUCATION

Under this title there appeared, some days back, an article in your columns which deserves to call attention. The question of education is certainly one of the most important that can be discussed, and any new idea that can be brought to hear on so vital a subject should be welcomed by all who are aware that it constitutes the hinges on which society must ultimately hang. Considering the extent to which the theme can be carried, if one enters into details, considering too how much has been said and written on it already, it is almost superfluous to remark that a fleeting newspaper commnnication, however elaborate, cannot contain one halt of what may be said on a question universally recognized as that of the day. Still, in as much as you have started it, and in view, I repeat, of the subject, it is the duty of all who take an interest in childhood, who look to the stability of institutions, to the moral and material progress and to the future of a country, it is their duty, I say, to elucidate it in every way they can. Here, however, it may not be inopportune to remark that all theories however good are null when no efforts are made to give them a practical turn. A good advocate without a heart in the cause makes a poor defence, and so educationists soaked in theories, but who lack the enthusiasm to carry them out, are hardly creditors of mankind. Much has been said, but how much has been done!

On these grounds then, and acceding to your invitation, I shall proceed to make a few observations on those advanced by *The Standard*.

The first great point according to my view that arises in the treatment of our subject is the following—What is Education? Do Education and Instruction mean the same thing? What is the relative value of each? Now the true signification of these two terms may be best known by their derivation. Both come directly from the Latin, but Education implies a great deal more than Instruction, and includes it. Education is a drawing forth, a development of the intellectual faculties, whereas instruction is a building in, a part of a fabric, a part of education, the acquisition so to say of a certain limited number of facts, and as a part is less than the whole, instruction does not imply education, and its value does not exceed that of a factor in all that which constitutes a complete development of the human mind.

If this view then is tenable your article hardly bears at all on education as such; or in other words it is nothing but an able introduction to the tenets and principles of those who uphold materialism as the sole object in life. Was man born into this world with no other purpose say, than that of increasing his flocks, of weighing their wool, curing their hides, boiling down their tallow, and then sit down to calculate with the utmost nicety the value of his goods converted into 'vile metal.' If this were so, your view is right. Abolish classical studies at once, erase the fine arts, have nothing to do with the refined accomplishments of philosophy, and in scorn of chemistry and the higher mathematics, reduce everything to pure arithmetic as the sole desideratum in life.

I maintain with you the advisability, nay the necessity, of propagating and popularizing primary instruction; it is the basis of all, but you must not exclude a higher and nobler education, if you do, rest assured a time will come when society will rue it sorely. With it disappear refinement and the many amenities of life, and its eclipse will be ushered in by the triumph of materialism and the brutality of societies unmentionable. Yes, if man has no other object in life beyond that of eating, drinking, and sleeping well, humanity will once more relapse into that chaos from which it is said to have emerged. As a great authority has well observed, a man can calculate the distance of the sun to a yard and not be a whit the wiser, and that a stupid little boy can speak so many languages because he had so many foreign nurses. And if this is true, I ask you again, is this education? No, education means much more, it means the utmost development which the human faculties are capable of receiving, and as this cannot be done in the way some suggest, the higher studies must be absolutely maintained.

To attain this 'desideratum' politics must not enter into the question. Teaching should be a career. Is it? How can it be when the post is no longer permanent. The professors in the National Schools are named from year to year at exceedingly low salaries and with no prospect of bettering their condition. It is just the same whether the professor is competent or not, whether he does his duty loyally or not, whether he is a veteran or a novice, whether he has two or three classes a day, or, perhaps, none at all, whether he has the gift of communication, whether he is learned or a mediocrity, it is all the same, each one is retributed just alike; and yet 'the labourer is worthy of his hire.'

But to return to your article, I agree with much of what you suggest, but I deny 'in toto' the classical attainments of the Argentines, and I dont believe there are half a dozen men in the country that have ever seen either Anacreon or Simonides, in the original at least. Were these studies so common and so well appreciated as you surmise, the national culture would be proportionately greater. Could England or Germany be cited as models, the question might be solved at once. What was the course of studies followed by their greatest men, among the greatest the world has ever seen; of Shakespeare, Milton, Dryden, Byron, Goethe, Schiller, not to mention our statesmen, for this was almost purely classical, that of the two Pitts was so absolutely.

The budget of the Ministry of Public Instruction is made the general butt of attack by embryo orators and embryo editors, and yet what is it compared with that of other bureaus? It is true a good sum is now spent on primary education, and if the result fails to correspond to the expenditure, it is due to the want of a proper organization, and to the neglect and materialism of the communities of the various shcolastic districts. The indifference shown by the latter to their educational interests and to the efforts made by the Central Government to foment them is quite incredible to the uninitiated. I speak what I know, having been, until they were rented, a member of the various Educational Boards that have existed here within the last fifteen years, or so. I coincide with you in that the plan of studies is too vast; it is not quantity but quality we require; reduce the scope, and the teaching will be much more effective. As the programmes now stand, they have a gloss and a superficiality about them which will not bear too close an inspection. Dr Pizarro has a great mission before him, and as he fulfils it, so will be his honour and glory.

D Lewis.

THE STATE OF IRELAND.

CONVICTION FOR BOYCOTTING

Cork.

One of the first convictions that have taken place in the South for Boycotting was obtained at the Cork Assizes to-day, and from a jury principally consisting of farmers three of whom were stated to be Land Leaguers. Three men, named Murphy, Kelleher, and Callaghan, were charged with having taken part in the Boycotting of Mr James Hegarty, a trader in Mill-street. Mr Hegarty would appear to have fallen under the censure of the Mill-street Land League, and a determined attempt was made to Boycott him. A notice was posted cautioning people not to deal with Mr Hegarty, and for some days afterwards it was proved that two of the prisoners, Murphy and Kelleher, were posted opposite Hegarty's shop taking a note of customers who were entering the establishment. The jury convicted Murphy and Kelleher and acquitted Callaghan. Setence was deferred.

The *Daily News* says:—The Postmaster General on Thursday night received from Mr A M Sullivan, M.P., the envelopes of two letters addressed to two young ladies at different addresses, which had been opened at the Post-office and returned to the senders. The letters posted in Ireland had contained supplies of shamrocks designed for use on St. Patrick's Day. It is surmised that the Post-office authorities thought the contents were of a more dangerous character. The same paper says:—The Home Rule party have under consideration the expediency of calling the attention of the House of Commons to recent utterances of several of the Irish judges, and of asking for their removal from the Bench.

A Parsonstown telegram says the result of the Poor Law Guardians contest in that Union has been a defeat of the Land League candidates. Nine contests took place, and in seven cases the Land League candidates were defeated.

THE BOER WAR.

The arrangement with the Boers appears to be regarded by the British settlers in South Africa with the profoundest dissatisfaction. The Durban correspondent of the *Times* telegraphs that military men and colonists alike denounce the settlement as 'most humiliating to England and as destructive of her prestige,' in that part of the world. Men everywhere, it is alleged, 'express shame at being Englishmen, and talk of leaving for some other country where national honour has not been abused.' But, apart from wounded pride, what, it is asked, is likely to be the effect of 'so degrading a termination to an inglorious war', upon the native races? The *Times* correspondent 'dares not contemplate' what may happen in this respect, and we are left to brood over the most terrible possibilities. Much of this feeling is excusable, but after the first surprise has passed away the colonists, we believe, will find it possible to take a calmer view of the situation. With regard to the troubles which are predicted, it is not only possible but probable that the arrangement arrived at may have a disturbing influence in the various settlements; but there is to hope, we think, that Africanders and natives will alike appreciate the fact that peace is concluded, not because England felt that she was unequal to the task of crushing the Boers, but for other reasons which will come in time to be fully understood. In Holland, at any rate, the peace is not viewed as a signal triumph for the Boers. When the Minister for Foreign Affairs read out on Wednesday in the Dutch Second Chamber the terms which had been agreed upon there were no demonstrations of feeling, and a telegram from the Hague states that 'public opinion in the chief cities does not appear to be wholly satisfied.' On the other hand, the action of the British Government is warmly applauded by the French press. The *XIXme. Siecle*, it is true, fears that the Boers have yielded too much, but its contemporaries generally speak in high praise of our generosity in negotiating at a time when we were in a position to pour an overwhelming force into the Transvaal. England, observes the *Temps*, has done an act of reparation 'after three defeats without feeling herself bound by false pride to wipe out those defeats.' The *Monde*—the well-known Clerical organ—congratulates us upon having 'happily withstood the seductions of military pride;' while the *Liberte*, a Bonapartist journal, holds that the Government has 'done itself honour' by consenting to sheathe the sword. There are Englishmen, of course, who will think lightly of these or any other expressions of foreign opinion, but to the bulk of the people of this country it will be some satisfaction to know that a transaction which has unquestionably touched the national pride is not misunderstood by Europe.

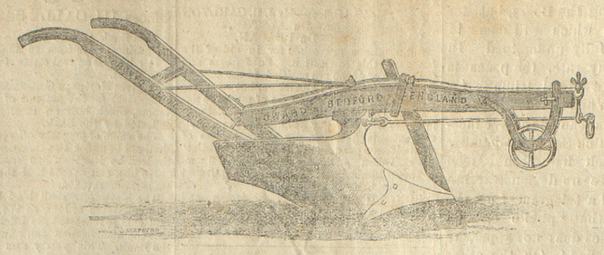
HOWARD'S IMPROVED AMERICAN PLOUGHS.



The above represents the well known 'Eagle 75' Plough which, and other sizes, are manufactured by J. & F. HOWARD in the highest style of workmanship, and tens of thousands are in use. Several manifest improvements have been introduced. As shown in the engraving, the body clips the beam, and the 'centre draught' is also taken from the strongest part of the iron body,—thus giving an additional security against the beam breaking at the bolt holes—a very common occurrence with American made Ploughs.

The beam is made of Oak, and can if required be fitted with a steel plate on each side.

The shares are hardened upon J. & F. HOWARD'S well known patented *water-chill* process, which renders them not only tough and hard, but ensures their wearing better and longer than made when by any other process.

Prices of the various sizes, Nos. 19, 19½, 25, 26, 55, 75, &c., sent on application.

The above Implements kept in Stock by the Principal Hardware Merchants.

Dysentery, Cholera, Fever, Ague, Coughs, Colds, &c.

Dr. J. COLLIS BROWNE'S
(Ex Army Medical Staff)

CHLORODYNE

IS THE ORIGINAL AND ONLY GENUINE.

—o—

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diptheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitations and Spasms.

CHLORODYNE the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis &c.

Extracts from Medical Opinions.

The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport, that he had received information to the effect that the only remedy or any service in Cholera was Chlorodyne. *See Lancet*, Dec. 31st, 1864.

From A. Montgomery, Esq. late Inspector of Hospitals, Bombay. 'Chlorodyne is a most valuable remedy in Neuralgia, Asthma, and Dysentery. To it I fairly owe my restoration to health, after eighteen months' severe suffering, and when other remedies had failed.

Dr. Lowe, Medical Missionary in India, reports (December 1865) that in nearly every case of Cholera in which Dr. J. Collin Browne's Chlorodyne was administered, the patient recovered.

Extract from the General Board of Health, London, as to its efficacy in Cholera. 'So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases.

See leading article, *Pharmaceutical Journal*, August 1st, 1860, which states that Dr. J. Collis Browne was the inventor of Chlorodyne, that it is always right to use his preparation when Chlorodyne is ordered.

CAUTION. None genuine without the words 'Dr. J. Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.
